

# EXPLORE THE CHANGING WORLD OF ENT

## WITH A SUBSCRIPTION

To one of the most important journals in our exciting profession. With top-quality science and a broad-ranging academic scope, it is easy to understand why, for more than 100 years, the Journal of Laryngology and Otolaryngology (JLO) has been at the top of the reading list for the well-informed ENT surgeon.

## AFFORDABLE ACCESS

Because the JLO is a charity that exists solely to advance knowledge in ENT, access to this vital source of medical learning is kept intentionally affordable, and you will reap untold benefits by having access to your own library of copies. As well as offering a student rate, the journal is also tax-deductible in many countries therefore you minimise your expenditure.

## INTERACTIVE

Under the editorship of Neil Weir and Guy Kenyon, you are building on our solid base of scientific reports to offer cutting edge innovations, such as: our interactive web-site with searchable abstract database and current issue; new international editors appointed to ensure global standards; new sections (such as the hugely popular *Molecular Biology in Otolaryngology-Head and Neck Surgery Series* in 1998); and the sponsorship of Visiting professors and Travelling Fellowships. **With your own subscription, you will be on top of the world of ENT.**
