

CRANFIELD

Residential Short Course

STABILITY and CONTROL of AIRCRAFT

12th to 23rd March, 1973

The course will include lectures on the classical theory of stability and control, automatic control, influence of aeroelasticity and other current topics from the field.

Fee: £110.

Further details from The Registrar (Short Courses), Cranfield Institute of Technology, Cranfield, Bedford MK43 0AL.

Telephone: Bedford 51551 (0234 51551)
Ext. 284. Telex: 825072.

LOUGHBOROUGH UNIVERSITY OF TECHNOLOGY

Research Assistant

Applications are invited for the post of Research Assistant in the Department of Transport Technology to carry out investigations into the effect of wave form and frequency on the fatigue life of metals. The work will be an extension of existing work being carried out under a Ministry of Defence Contract and will be mainly of an experimental nature. The appointment is initially for one year, with the possibility of extension. Previous experience is desirable but not essential.

Salary within scale £1,605-£1,923. Further particulars and application form from Administrative Assistant, Department of Transport Technology.

Note: The President of each Division and the Chairman of each Section of the Society is a Member of the Council.

NOW AVAILABLE—
an Easy Binder for your copies of
THE AERONAUTICAL JOURNAL

Many members have told us they would welcome a quick and easy way to bind and protect the twelve issues of THE AERONAUTICAL JOURNAL they receive each year.

We are introducing a new binder for this purpose, strongly constructed of stiff board, covered externally with blue plastic and with a black satin PVC lining. The curved spine is attractively gold blocked with THE AERONAUTICAL JOURNAL as title and the crest of the Society, and self-adhesive numerals are being supplied in sets of three to cover 1972, 1973 and 1974. Copies of the Journal are secured in the binder on the plastic tape fittings provided. This is a splendid new way to keep all your Journals in perfect condition.

Write now to the Accounts Department, The Royal Aeronautical Society, 4 Hamilton Place, London W1V 0BQ, enclosing a cheque or postal order for £1.25 to secure your first binder.

Permanent binding of THE AERONAUTICAL JOURNAL is still available on quotation from The Society.

WESTLAND HELICOPTERS LIMITED YEOVIL SOMERSET ENGLAND AEROSPATIALE 2 A 20 AV. MARCEL CACHIN 93 LA COURNEUVE FRANCE

We fuel Laker Airways' hush-hush new airliner.

Shell-Mex and B.P., operators of the Shell and the BP Aviation Services, fuel Laker Airways' McDonnell Douglas DC 10-10 at Gatwick Airport, London.

This 345-seat DC 10 is the first wide-body trijet to be delivered to a European operator, and is intended for charter work and for the Laker "Skytrain" transatlantic walk-on flights.

With a perceived noise level between 7 and 17 EPNdb's less than the current generation of fan jets, and with interior noise claimed to be less than in any other aircraft flying, the DC 10 pioneers a new quiet era in commercial aviation.

Shell-Mex and B.P. are pleased to be at the service of Laker's gentle giant. And at your service at every major airport throughout Great Britain.
