Organizing Committees		ix
Acknowledgements of Financial Support		x
Outline of Program		xii
List of Participants		xiv
PART 1. OVERVIEW OF THE COLLOQUIUM		
1. G. A. Wilkins	Report on the discussions	3
PART 2. PUBLICATION AND ACQUISITION OF BOOKS AND JOURNALS		
2. H. A. Abt	The future of astronomical literature	37
3. P. B. Boyce	Journal costs: Journal publishing as part of a Society's operations	45
4. O. B. Dluzhnevskaya	Astronomical literature acquisitions in the U.S.S.R.	48
5. J. W. Weigel	Difficulties for western nations in obtaining publications from other nations	52
6. S. S. de Guerra	Problems of international acquisitions	54
7. Liu Jinming	Foreign astronomical literature acquisitions in China	56
8. Lui Jinming	The astronomical publications of China	58
PART 3. SEARCHING FOR ASTRONOMICAL INFORMATION		
9. L. D. Schmadel	Words for searching - key words	65
10. G. A. Wilkins	The revision of the Universal Decimal Classification for astronomy	70
11. R. M. Shobbrook	T-Rex: A cooperative thesaurus building project for the International Astronomical Union	72
12. L. D. Schmadel	Astronomy and Astrophysics Abstracts - Present status and future plans	77
13. D. A. Lubowich	a. Abstracting and indexing services of the American Institute of Physics	82
	b. Physics and Astronomy Classification Scheme - 1988	83

14. J. Rey-Watson	Online bibliographic resources in astronomy and astrophysics	84
15. W. Lück	The PHYS database: A new cooperation with AAA	87
16. M. J. Collins	A new dimension to retrieval	89
17. M. Albrecht, A. Bodini and G. Russo	The European Space Information System - ESIS	91
18. J. L. Bausch	The Union List of Astronomy Serials	93
19. A. R. Macdonald	The Union List of serials in astronomy libraries of the UK	95
20. A. Heck and J. L. Halbwachs	Astronomical directories	97
21. G. Russo	Basic principles of computer networking	99
22. C. R. Benn	Electronic mail	102
23. S. Laloë	Searching for astronomical information	105
PART 4. HANDLING AND USE OF SPECIAL-FORMAT MATERIALS		
24. A. Ratnakar	Preprint information service at the Raman Research Institute Library	109
25. M. E. Gómez	Handling of preprints	111
26. E. Bouton and S. Stevens-Rayburn	Preprint databases at NRAO and STScI	113
27. C. Jaschek	Non-printed materials	117
28. C. Van Atta	Storing sky surveys at NOAO	119
29. M. E. Gómez	Handling of microfiche	122
30. W. H. Warren, Jr	Library collections of machine-readable astronomical catalogs	123
31. K. Kaminska	Observatory publications and their significant role in astronomical libraries	127
32. M. Cummins	An observatory publications reclassification project	129
33. A. M. Fishburn	Observatory publications in the small institute library	131
34. J. Gantz	Observatory publications	134
35. C. Hutchins	Session 3 overview: Management of astronomical peculiarities	136

PART 5. ASTRONOMICAL DATA CENTERS

36. C. R. Benn	The La Palma data archive	139
37. F. Ochsenbein	The ESO archive project	141
38. M. Barylak, W. Wamsteker, C. Driessen, J. R. Munoz and A. Talavera	The on-line IUE uniform low-dispersion archive	145
39. P. Dubois	SIMBAD: An astronomical database	146
40. P. Dubois	SIMBAD bibliography and other astronomical bibliographies	150

PART 6. CONSERVATION AND ARCHIVING

41. M. Roosa and M. Smith	Care and handling of bound library materials	157
42. M. Vargha	The care of obsolete instruments	161
43. S. Débarbat	Correspondence, unpublished papers and data: comments on modern use of old archives	164
44. A.-M. Motais de Narbonne	Correspondence, unpublished papers and data: present making of historical records	168
45. B. Corbin	Maintaining the historical record	171

PART 7. OTHER LIBRARY ACTIVITIES

46. E. Sachtschal	Use of computers in small libraries	175
47. S. Stevens-Rayburn	Use of computers to improve library services at the Space Telescope Science Institute	179
48. Li De-he, Wang Ya-hong, Dang Fa-kuan, Chen Jun, Chen Feng-xiang, Wang Yu-lian and Xu Qui-ju	Computer system of library management and information retrieval at the Shaanxi Astronomical Observatory	182
49. P.-H. Dale	A proposal for better cooperation among the libraries of astronomical observatories	184
50. R. M. Shobbrook	Conversion of the Anglo-Australian Observatory Library card catalogue using PC software	188
51. E. Bouton and M. E. Gómez	Administration of libraries at distant sites and remote telescope locations	190

52. E. Lastovica	Resource sharing and cooperative activities in astronomical libraries	192
53. B. Gertner	The exchange of lists of duplicates and its importance for astronomical libraries	194
54. J. Davies	Resource sharing in the CSIRO Division of Radiophysics Library	196
55. A.-M. Motais de Narbonne	Resource sharing: information sharing	198
56. Huang Bi-kun	Collection developing at Purple Mountain Observatory: Seeking exchanges of foreign astronomy serials	199
57. P. Molholt	The astronomical library of the future	203
PART 8. OTHER PAPERS		
58. M. Vargha	Milestones of information exchange in astronomy from prehistory to the present	211
59. A. L. Primack	Identifying academic physical science research in progress	214
60. C. Rhodes, M. Kurtz and J. Rey-Watson	An astronomical software documentation collection at the Smithsonian Astrophysical Observatory	215
61. M. J. Vin and A.-M. Motais de Narbonne	Physics and astronomy acquisitions in French libraries specialising in astronomy: some comments	217
62. Zhou Yunfen	Library and information services in Chinese astronomy	219
63. J. A. Mattei	The AAVSO and its variable star database	222
64. M. Vargha and A. Mizser	Summary of survey of astronomical libraries	225
APPENDIXES		
1.	Acronyms and abbreviations	231
