

CORRIGENDUM

Electron acoustic super solitary waves in a magnetized plasma. *J. Plasma Phys.* 84 (4) (2018) – CORRIGENDUM

T. Kamalam, S. V. Steffy and S. S. Ghosh

doi:10.1017/S0022377818000740, Published by Cambridge University Press,
27 July, 2018

We have noticed that the table 1 had some errors on its last three columns. Now the corrected values are given in the table.

$k\lambda_{\text{iff}}$	ω/ω_{pe}	V_{phase} (m s ⁻¹)	V_{tic} (m s ⁻¹)	V_{tih} (m s ⁻¹)
0.07	0.0368	6.6712×10^5	1.1987×10^5	1.8954×10^5
	0.0054	9.7892×10^4		
	0.0044	7.9764×10^4		
0.5	0.2837	7.2002×10^5	1.1987×10^5	1.8954×10^5
	0.026	6.5987×10^4		
	0.0075	1.9035×10^4		
0.99	0.4949	6.3436×10^5	1.1987×10^5	1.8954×10^5
	0.0558	7.1524×10^4		
	0.0075	9.6134×10^3		

TABLE 1. Comparison between the thermal and phase velocity for the chosen parameters.

The first line of p. 7 is corrected as ‘we have assumed that the plasma contains both H^+ and O^+ , the former being the cooler component with $\mu_i = 0.4$ ’.
