

JMBA

VOLUME 73:4 NOVEMBER 1993

JOURNAL OF THE MARINE BIOLOGICAL ASSOCIATION
OF THE UNITED KINGDOM

SUBSCRIPTIONS

The *Journal of the Marine Biological Association* (ISSN: 0025-3154) is published four times a year in February, May, August and November. The subscription price of Volume 73 to non-members of the Association is £164 in the UK and all other parts of the world except North America. Subscription price in the USA, Canada and Mexico is US\$329. The above prices are payable in advance and include postage. Copies for the USA, Canada and Mexico are air-freighted to New York to arrive with minimum delay. Single parts cost £43 (US\$83 in USA, Canada and Mexico) plus postage. Subscriptions may be sent to any bookseller or to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, or in USA, Canada and Mexico, to Cambridge University Press, 40 West 20th Street, New York, NY 10011-4211. Japanese prices for institutions (including ASP delivery) are available from Kinokuniya Company Ltd, PO Box 55, Chitose, Tokyo. Second class postage paid at New York, NY and at additional mailing offices. POSTMASTER: send address changes in the USA, Canada and Mexico to *Journal of the Marine Biological Association*, Cambridge University Press, 110 Midland Avenue, Port Chester, NY 10573-9864. All orders must be accompanied by payment.

Strathmann**, Friday Harbor Laboratories, USA. **Prof. H. Thiel**, University of Hamburg, Germany. **Dr M.J. Wells**, University of Cambridge, UK. **Prof. J.S. Wroblewski**, Memorial University of Newfoundland, Canada.

EDITORIAL POLICY

From 1993 the annual report of the Marine Biological Association will no longer be included in the final issue of each volume of the *JMBA*. This will allow the publication of about six extra papers. The annual report will be sent to all subscribers as a separate item with part 4 each year so that libraries can bind it with the volume.

The *JMBA* publishes papers on all aspects of marine biology and oceanography. Papers should report the results of original research and must not have been published, or be under consideration for publication, elsewhere. Short communications, which may also report on new methods or techniques, should not exceed four printed pages, including tables and illustrations. If there is a particular reason why rapid publication is required this should be stated with the submission. Papers will be accepted only after receiving a satisfactory report from at least two independent reviewers, drawn from an international panel of referees.

Papers describing work involving experimental procedures on living animals will be published only if they comply with the legal requirements of the UK Home Office. In the case of species not covered by the current law, papers will be published only if it is judged that the experiments have been conducted in a humane manner and adequate precautions taken to minimize stress.

THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

The Association is a registered charity and was founded in 1884 to promote accurate researches leading to the advancement of zoological and botanical science and to an increase in our knowledge of the food, life, conditions and habits of British fishes. The work of the Association is controlled by a Council elected annually by its subscribing members.

The Plymouth Laboratory was opened in June 1888, and, since that date, considerable additions have been made to the buildings, including a library, lecture-hall, and extensive laboratory accommodation with up-to-date equipment. Additional sea-water reservoirs have also been built, and an aquarium which is open to the public.

The Marine Biological Association, under the direction of its Council, has undertaken research in all branches of marine science and many of the results have been published in this Journal. An account of the history of the first hundred years of the Association and Journal may be found in Volume 67 (pp. 463 and 465). Summaries of the activities and research of the Association are given annually in the Report of the Council, sent to members in April, and to other subscribers with the November issue of the *JMBA*.

Since its foundation the Association has been supported by grants from Research Councils and by subscriptions and donations from private members, universities, learned societies, the Fish-mongers' Company and other public bodies. The main financial support for the work of the Plymouth Laboratory is grant-aided through the Natural Environment Research Council.

In 1988 an agreement was reached between the MBA Council and the Natural Environment Research Council to merge a large part of the Plymouth Laboratory with the NERC's Institute for Marine Environmental Research, which had been in Plymouth since 1971. The new laboratory is known as the Plymouth Marine Laboratory and consists of the staff of the two laboratories housed in both buildings.

The Marine Biological Association retains the lease of the building on Citadel Hill and continues as a very active scientific society with a large international membership. The MBA manages a research programme carried out by research fellows and scientific visitors, publishes an International Journal, runs a public Aquarium, and organizes scientific meetings.

TERMS OF MEMBERSHIP

Annual members, receiving the Journal, per annum	£25.00
Annual members, without the Journal, per annum	£10.00
Corporate members, per annum	£250.00
Student members, with the Journal, per annum (non-voting)	£10.00
Student members, without the Journal, per annum (non-voting)	£5.00

Annual subscriptions become due on 1 January, student subscriptions on 1 November.

Members of the Association have the following rights and privileges: they elect annually the Officers and Council; they are entitled to receive the Journal of the Association at the Members' rate; they are admitted to view the laboratory at Plymouth; they have the first claim to rent a place in the laboratory for research, with use of tanks, boats, etc.; they have the opportunity of occupying a table for one week in each year free of charge; and they have access to the books in the library at Plymouth during working hours. Corporate members have significant additional rights and privileges, details of which can be supplied on request. Student members do not have voting rights and their occupancy of a table at the laboratory must be in collaboration with a full member.

The Commissioners of Inland Revenue have approved the Association for the purposes of Section 16, Finance Act, 1958, and that the whole of the annual subscriptions paid by a member who qualifies for relief under the section will be allowable as a deduction from his emoluments assessable to income tax under Schedule E.

All correspondence should be addressed to: The Director, Marine Biological Association, The Laboratory, Citadel Hill, Plymouth, PL1 2PB, UK (Telephone: 0752 222772).

RAY LANKESTER INVESTIGATORSHIPS

The Council of the Marine Biological Association announces the availability of Ray Lankester Investigatorships to enable research scientists to pay working visits to Plymouth.

The terms of the investigatorships are as follows:

1. Candidates must be members of the Association and would normally have an established career in some aspect of biology and be seeking the opportunity to develop new ideas that require the facilities of a marine laboratory.
2. Working visits will normally be for a total of three to five months. These working visits must consist of individual periods of not less than one month and the total tenure of the Investigatorship must be completed within 18 months of the agreed starting date of the award.
3. The stipend will be £1,500 per calendar month.
4. Applications can be submitted at any time, but they should be received by the end of August in the year prior to that in which the award is to be held.
5. All applicants will be reviewed by the Trustees of the Ray Lankester Fund (The Director of the MBA, the Linacre Professor of Comparative Anatomy at the University of Oxford and the Professor of Zoology at the University of Cambridge) and must be approved by the Council of the Marine Biological Association (meeting in January, April and October each year).
6. There are no application forms. Applicants must provide four copies of (a) a curriculum vitae, (b) a full bibliography, (c) a research proposal (five pages) outlining the work proposed and the reasons why the investigation would benefit from an extended working visit to Plymouth, (d) a statement of the way in which the award would be used (e.g. travel costs, subsistence, equipment etc).

Applications and requests for further details and information on MBA membership should be addressed to:

MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

ANNUAL REPORT 1992

The Annual Report of the Marine Biological Association is no longer included in the final issue of each volume of the *JMBA*, thus allowing the publication of extra papers. The Annual Report for 1992 is being sent to all subscribers as a separate item with this final issue of the volume so that it can be bound with the volume if desired.

Members will have received a copy of the report in the spring.
