

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

OLIVER & BOYD LTD.
EDINBURGH AND LONDON

JUNE 1961

VOL. 3 PART 2

INFORMATION FOR CONTRIBUTORS TO
ANIMAL PRODUCTION

Animal Production publishes papers on original research provided that they have not been, and will not be, published elsewhere in whole, or in part, without the Editors' written permission. Contributions may be in the field of animal production, or in any related scientific field. Papers presented at meetings of the British Society of Animal Production, if submitted to the Editors, will be given equal consideration with other papers.

Animal Production is published three times a year, each number consisting of about 96 pages. Annual subscription for every 3 numbers is 45s. (or \$7.50 in the U.S.A. and Canada) and the price for a single number is 17s. 6d. (or \$2.75).

Length of papers should not normally exceed the equivalent of 6,000 words, inclusive of tables, text figures and references.

Manuscripts should be typed in double spacing and the ribbon copy sent to one of the Editors at the addresses given below. Manuscripts are not returned with the proofs; authors should therefore retain copies.

Illustrations (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless the author bears the cost.

**THE INDIGENOUS LIVESTOCK OF
EASTERN AND SOUTHERN AFRICA**

by I. L. Mason and J. P. Maule

This book is the result of a thorough investigation of all available sources of information on the livestock in the area east of a line drawn from the Northern Sudan to the mouth of the Congo. It covers the following species: camel, horse, ass, cattle, sheep, goat and pig. In describing the animals a system of classification has been followed which links those of similar type. Measurements and liveweights are given where possible, together with an indication of performance.

nutrition abstracts and reviews

This journal is produced by the Commonwealth Bureau of Animal Nutrition. The Bureau is part of the Commonwealth Agricultural Bureaux organisation financed by Commonwealth governments and the journal is issued under the direction of the Commonwealth Agricultural Bureaux Council, the Medical Research Council and the Reid Library of the Rowett Research Institute. In its four quarterly parts there are informative abstracts on all aspects of nutrition both animal and human and each part contains a critical review article on some special aspect of the subject.

The current volume is Volume 31 for which the subscription rate is £6. 6s.
