The Classical Association

THE main aims of the Classical Association are to promote and sustain interest in classical studies, to maintain their rightful position in universities and schools, and to give scholars and teachers opportunities of meeting and discussing their problems. It organizes an annual conference, lasting four or five days, in a university centre, and sponsors some thirty branches, most of which hold Greek and Latin Reading Competitions for Schools. Its activities are fully reported in its annual *Proceedings*, issued free to all members.

The present membership of the Association is just under 4,000. Membership is open both to individuals and to institutions at an annual subscription of £3; life composition for individual members, £63. Members may obtain the *Classical Review* and *Classical Quarterly* at reduced prices (*Review* £13, *Quarterly* £14; combined subscription, £24). *Greece and Rome* may also be obtained through the Association for an annual subscription of £11. Applications for membership and subscriptions for the journals (which should normally be received by 31st January in each year) should be addressed to the Treasurer, Mr. R. Wallace, Dept. Classics, University of Keele, Keele, Staffs. ST5 5BG.

The Association can also supply copies of the Index to the First Series of the *Classical Review* (price £1.50, post free) and of the last issue of *The Year's Work in Classical Studies*, covering the years 1945–47 (price £1, post free). CORRUPTION AND THE DECLINE OF ROME

Ramsay MacMullen

Prominent historian Ramsay MacMullen offers here a new perspective on the decline and fall of Rome, arguing that a key factor in Rome's fall was the steady loss of focus and control over government as its aims were thwarted for private gain by high-ranking bureaucrats and military leaders. Written in an informal and lively style, his book — the culmination of years of research and thoughtful analysis — provides a fascinating, fresh line of investigation and shows convincingly that the decline of Rome was a gradual insidious process rather than a climactic event. 332pp. 17 illus. £18.95

Pompeii

An Architectural History

L. Richardson, jr

"Richardson's *Pompeii* is an original and substantial contribution to the field, the fruit of thirty years' experience and accurate, affectionate observation. It will be the authoritative work in English."

—Paul MacKendrick,
University of Wisconsin, Madison

This, the first book of this century devoted to Pompeian architecture and urban development, tells the story of the city through its buildings — and places Pompeii in context as a keystone in the architectural history of antiquity. L. Richardson, jr, discusses public buildings, private buildings, and tombs from each of Pompeii's four major building periods. Fifty ground plans and twenty-five photographs illustrate the text, and the comprehensive Eschbach city plan is reproduced at large scale.

The Ancient Roman City

John E. Stambaugh

Exploring ancient Rome as both a physical and social environment, John Stambaugh has written the first extended summary of its development in English — and a vivid "guidebook into the living past of one of the most emphatically urban cities the world has ever known."

The Ancient Roman City draws on recent work in archaeology and social history and on physical, literary, and documentary sources to illuminate ancient Rome as a functioning city. A chronological account of topography and growth up to the third century A.D. combines with examinations of such specific topics as city government, public services, demography, and housing. Numerous illustrations and Stambaugh's detailed descriptions convey a sense of the texture of daily existence.
