

GRASS AND FORAGE SCIENCE

The Journal of the British Grassland Society

Editor: Dr. A. Younger, Department of Agriculture,
The University, Newcastle upon Tyne NE1 7RU, UK

Grass and Forage Science is in its 49th year of publication and has subscribers in nearly 70 countries. It is a major English language journal that publishes the results of research and development in all aspects of grass and forage production, management and utilization, occasional reviews of the state of knowledge on relevant topics, and book reviews. Authors are also invited to submit papers on non-agricultural aspects of grassland management such as recreational and amenity use and the environmental implications of all grassland systems. The main emphasis is on the temperate regions although relevant papers from other regions may be published.

Grass and Forage Science is now the foremost organ for the publication of scientific results relating to temperate grasslands.

Subscription Information

Grass and Forage Science is published quarterly. Subscription rates (post free) for 1995 are as follows (Canada - please add 7% GST):

Europe	Overseas	USA and Canada
£147.50	£161.50	US\$250.00

ORDER FORM

- I would like to subscribe to *Grass and Forage Science* in 1995
- Please send me a specimen copy of *Grass and Forage Science*
- I enclose a cheque made payable to "Blackwell Scientific Publications" for the sum of
£_____ US\$_____
- Please debit my Access/Visa/American Express/Diners/Eurocard for £_____ US\$_____

Card Number Expiry Date ____/____

European Community VAT - Subscribers in Europe must quote their VAT registration number or state that they are not registered. Subscribers in the Netherlands who are not registered must add 6% to the subscription price

VAT registration number _____ I am not registered for VAT

Name _____ Address _____

Street/PO Box _____ Town & County/State _____

Country _____ Post/Zipcode _____

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

a) Diagrams should be drawn in black ink, about twice the size of the finished block, on white paper or card, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be avoided as far as possible but if unavoidable it should be included on a fly-leaf.

b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the editors.

c) Colour plates are unlikely to be accepted unless the authors bear the cost.

Tables should be as simple and as few as possible. Each table should be typed on a separate sheet.

Abstract. Every paper should have a short abstract (not more than 250 words) complete in itself and understandable without reference to the paper. The abstract will be printed at the beginning of the paper and preferably should be in the format of unnumbered short paragraphs.

Keywords. Up to a maximum of five keywords selected from the *CAB Thesaurus* (1988) or from an equivalent reference volume should be listed at the end of the Abstract.

References. Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. The arrangement of references should be as in recent papers in *Animal Science*; details are given in the notes for guidance.

Proofs are supplied once and must be returned corrected to the editors within 3 days. Only essential corrections should be made.

Reprints. Twenty-five reprints of each paper will be supplied free of charge to authors on request. Further copies may be purchased if the order is sent at the proof-stage.

Annual subscription is £140.00 (or \$255.00 in the USA and Canada) and the price for a single part is £24.00 (or \$43.00) net.

Abstracts of papers presented at British Society of Animal Science winter meeting are published as a separate section in the June issue of *Animal Production*.

Correspondence regarding subscriptions and sales (current and back numbers of the Journal) and any other enquiries, including those concerning copyright, should be addressed to: Durrant Periodicals, Winton Lea, Pencaitland, East Lothian, Scotland EH34 5AY.
