Oryx 100% Fund Grants

The following 100% Fund grants were approved at the January 13 Council meeting:

- £650** to Professor B.C. Clarke to breed species of Pacific land snails threatened with imminent extinction (including IUCN grant, above);
- £500** to Jack Frazier to study age structures of Mexican olive ridley turtle populations;
- £250** to Dr N.J. Collar for an ICBP project to investigate sites for great, little and houbara bustards in the Middle East;
- £200** to Jean Ngog Nje to study giraffe population dynamics in the Waza National Park, Cameroon;
- £200** to J.M.Y. Robertson to train six Indonesian students in ecological fieldwork;
- £130** to Mr John A.H. Benzie to complete a study of an endemic prawn, *Caridina singhalensis* in Sri Lanka.
- £100** to Dr Boonsong Lekagul to search for white-eyed river martins at the Bung Berapet Reserve in central Thailand;
- £100** to Simon Hooton of the British Trust for Conservation Volunteers to maintain the habitat of the endangered raft spider in Redgrave Fen;
- £100** to Dr Craig MacFarland to draw up management plans for Central American rain forests.
