

# INFECTION CONTROL & HOSPITAL EPIDEMIOLOGY

VOLUME 29, NUMBER 3

MARCH 2008

## ORIGINAL ARTICLES

- 197 **Assessment of *Clostridium difficile*–Associated Disease Surveillance Definitions, North Carolina, 2005**  
Preeta K. Kutty, MD, MPH; Stephen R. Benoit, MD, MPH; Christopher W. Woods, MD, MPH;  
Arlene C. Sena, MD, MPH; Susanna Naggie, MD; Joyce Frederick, MSN; John Engemann, MD; Sharon Evans, RN;  
Brian C. Pien, MD; Shailendra N. Banerjee, PhD; Jeffery Engel, MD; L. Clifford McDonald, MD
- 203 **Variability in Rates of Use of Antibacterials Among 130 US Hospitals and Risk-Adjustment Models for Interhospital Comparison** • Conan MacDougall, PharmD; Ronald E. Polk, PharmD
- 212 **Is Surgery a Risk Factor for Creutzfeldt-Jakob Disease? Outcome Variation by Control Choice and Exposure Assessments** • Jed A. Barash, MD; Blair T. Johnson, PhD; David I. Gregorio, PhD
- 219 **Rates of Surgical Site Infection After Hip Replacement as a Hospital Performance Indicator: Analysis of Data From the English Mandatory Surveillance System** • J. Wilson, MSc; A. Charlett, MSc; G. Leong, MSc; C. McDougall, Dip; G. Duckworth, FRCPath
- 227 **Downward Trends in Surgical Site and Urinary Tract Infections After Cesarean Delivery in a French Surveillance Network, 1997-2003** • Agnès Vincent, MD; Louis Ayzac, MD; Raphaële Girard, MD; Emmanuelle Caillat-Vallet, AStat; Catherine Chapuis, MD; Florence Depaix, RN; Anne-Marie Dumas, MD; Chantal Gignoux, MD; Catherine Haond, MD; Joëlle Lafarge-Leboucher, LM; Carine Launay; Françoise Tissot-Guerraz, MD; Jacques Fabry, MD; Mater Sud-Est Study Group
- 234 **Epidemiology of Hospital-Acquired Infections in Veterans With Spinal Cord Injury and Disorder** • Charlesnika T. Evans, PhD, MPH; Sherri L. LaVela, MPH, MBA; Frances M. Weaver, PhD; Michael Priebe, MD; Paul Sandford, MD; Pamela Niemiec, RN, CIC, MPH; Scott Miskevics, BS; Jorge P. Parada, MD, MPH
- 243 **Cohort Study of the Pathogenesis and Molecular Epidemiology of Catheter-Related Bloodstream Infection in Neonates With Peripherally Inserted Central Venous Catheters** • Jeffery S. Garland, MD, SM; Colleen P. Alex, BSN; Jackie M. Sevallius, BSN; Dawn M. Murphy, RN; Mary J. Good, BSN; Annette M. Volberding, BSN; Leslie L. Hofer, RN; Barbara J. Gordon, MS; Dennis G. Maki, MD
- 250 **Molecular and Descriptive Epidemiology of Multidrug-Resistant Enterobacteriaceae in Hospitalized Infants** • Brian Anderson, BS; Sarah Nicholas, MD; Bruce Sprague, BS; Joseph Campos, PhD; Billie Short, MD; Nalini Singh, MD, MPH
- 256 **Impact of Severe Acute Respiratory Syndrome and the Perceived Avian Influenza Epidemic on the Increased Rate of Influenza Vaccination Among Nurses in Hong Kong** • Dennise K. P. Tam, BSocSc; Shui-Shan Lee, MD; Sing Lee, FRCPsych(UK)
- 262 **Social Marketing Analysis of 2 Years of Hand Hygiene Promotion** • Manuel W. Mah, MD, MPH, FRCPC; Yat Cho Tam; Sameer Deshpande, PhD

**NOW** you hold the power  
to fight for your patients

INTRODUCING

 **V·Link** with **VitalShield**  
Luer Activated Device Protective Coating

The first antimicrobial  
IV connector

Kills on average 99.9% or more of specific  
common pathogens known to cause catheter-  
related bloodstream infections (CR-BSIs)<sup>1\*</sup>

\*These *in vitro* test results of typical devices have not been shown  
to correlate with a reduction in infections.

To learn more about the new V-Link device or any of our other products,  
contact your Baxter representative or the Baxter Product Information  
Center at 1-800-933-0303, or visit [www.baxter.com](http://www.baxter.com).

# INFECTION CONTROL & HOSPITAL EPIDEMIOLOGY

VOLUME 29, NUMBER 3

MARCH 2008

CONTENTS CONTINUED FROM COVER

## CONCISE COMMUNICATIONS

- 271 **Vancomycin-Resistant Enterococci in Canada: Results from the Canadian Nosocomial Infection Surveillance Program, 1999-2005** • Marianna Ofner-Agostini, MHS; B. Lynn Johnston, MD; Andrew E. Simor, MD; John Embil, MD; Anne Matlow, MD; Michael Mulvey, PhD; Debbie Ormiston, CIC; John Conly, MD; Canadian Nosocomial Infection Surveillance Program
- 275 **Contact Isolation for Infection Control in Hospitalized Patients: Is Patient Satisfaction Affected?** • Leanne B. Gasink, MD, MSCE; Karyn Singer, BA; Neil O. Fishman, MD; William C. Holmes, MD, MSCE; Mark G. Weiner, MD; Warren B. Bilker, PhD; Ebbing Lautenbach, MD, MPH, MSCE
- 279 **Appropriateness of Use of Indwelling Urinary Tract Catheters in Hospitalized Patients in Italy** • Gianluca Raffaele, MD; Aida Bianco, MD; Maria Aiello, MD; Maria Pavia, MD, MPH
- 282 **Nosocomial Dermatitis Caused by *Dermanyssus gallinae*** • A. P. Bellanger, MD; C. Bories, PhD; F. Foulet, PhD; S. Bretagne, PhD; F. Botterel, PhD

## LETTERS TO THE EDITOR

- 284 **Failure of Decolonization in Patients With Infections Due to Mupirocin-Resistant Strains of Community-Associated Methicillin-Resistant *Staphylococcus aureus*** • Christopher J. Graber, MD, MPH; Brian S. Schwartz, MD
- 284 **Reply to Graber and Schwartz** • Joseph Rahimian, MD
- 285 **Intervention to Increase Influenza Vaccination Rates Among Healthcare Workers in a Tertiary Teaching Hospital in Brazil** • Marta H. Lopes, MD, PhD; Ana M. C. Sartori, MD, PhD; Melissa Mascheretti, MD; Tania S. S. Chaves, MD, MSc; Rosa M. M. Andreoli, RN; Mariusa Basso, RN, MSc; Antonio A. Barone, MD, PhD
- 286 **Clusters of Nosocomial Meningitis Associated With a Single Anesthesiologist** • Claire Thénicié, MD; Anne Carbonne, MD; Pascal Astagneau, MD, PhD

## ERRATUM

- 288 **Valls et al. (2007; 28:1352-1360)**

*An Official Publication of the Society for Healthcare Epidemiology of America*

**EDITOR**

Suzanne F. Bradley, MD • Ann Arbor, MI

**DEPUTY EDITOR**

Carol A. Kauffman, MD • Ann Arbor, MI

**SENIOR ASSOCIATE EDITORS**

*Infection Control and Hospital Epidemiology* (ISSN 0899-823X) is published monthly by the University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637-2954 (<http://www.journals.uchicago.edu/ICHE/>). The editorial office is in Chicago, Illinois.

**Editorial Office**

Communications should be addressed to the Editor, *Infection Control and Hospital Epidemiology*, 1427 E. 60th St., Chicago, IL 60637-2954; (e-mail: [iche@press.uchicago.edu](mailto:iche@press.uchicago.edu); telephone: 773-702-2448, fax: 773-753-4247). Contributors should consult the Information for Authors, which is available at the journal's Web site.

**Advertising**

Please direct advertising inquiries to Journals Advertising, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: [thill@press.uchicago.edu](mailto:thill@press.uchicago.edu); telephone: 773-702-8187; fax: 773-702-0172). Publication of an advertisement in *Infection Control and Hospital Epidemiology* does not imply endorsement of its claims by the Society for Healthcare Epidemiology of America, by the Editor, or by the University of Chicago. Correspondence regarding advertising should be addressed to the advertising office in Chicago.

**Permissions**

Articles may be copied or otherwise reused without permission only to the extent permitted by Sections 107 and 108 of the US Copyright Law. Permission to copy articles for personal, internal, classroom, or library use may be obtained from the Copyright Clearance Center (<http://www.copyright.com>). For all other uses, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale,

please contact the Permissions Coordinator, Journals Division, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: [journalpermissions@press.uchicago.edu](mailto:journalpermissions@press.uchicago.edu); fax: 773-834-3489). Articles in the public domain may be used without permission, but it is customary to contact the author.

**Subscriptions**

Subscription rates for 2008 are \$164 for individuals and \$386 for institutions. Additional rates for non-US subscribers and reduced rates for fellows, residents, and students are available at <http://www.journals.uchicago.edu/ICHE>. Subscription agent for Japan: Kinokuniya Company, Ltd. Individuals have the option to order directly from the University of Chicago Press. Single copy rates: individuals \$17; institutions \$38.

Please direct subscription inquiries, requests for back issues, and address changes to Journals Division, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637 (e-mail: [subscriptions@press.uchicago.edu](mailto:subscriptions@press.uchicago.edu); telephone: 773-753-3347 or toll-free in the United States and Canada 877-705-1878; fax: 773-753-0811 or toll-free 877-705-1879).

**Postmaster:** Send address changes to *Infection Control and Hospital Epidemiology*, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637-2954.

Periodicals postage paid at Chicago, Illinois, and at an additional mailing office.

# PROVEN

to reduce incidence of CRBSI by 60%.

When it comes to preventing Catheter-Related Bloodstream Infections (CRBSI), prepping the patient's skin is not enough. That's because resident bacteria begin to recolonize the skin surface within hours of thorough antiseptic application. BIOPATCH® Protective Disk with CHG is proven to reduce incidence of CRBSI by a significant 60%.<sup>1</sup> The proprietary technology in BIOPATCH® Disk continually releases CHG for up to 7 days, for sustained antimicrobial action. So add BIOPATCH® to your catheter insertion and dressing change protocols and get closer to the goal of zero CRBSI. For additional information or technical support, call 877-ETHICON. For Full Prescribing Information, and to order, visit [www.BIOPATCH.com](http://www.BIOPATCH.com), or call 800-255-2500.

**References:** 1. Maki DG, Mermel L, Genthner D, Hua S, Chiacchierini RP. An evaluation of BIOPATCH® Antimicrobial Dressing compared to routine standard of care in the prevention of catheter-related bloodstream infection. Johnson & Johnson Wound Management, a division of ETHICON, INC. 2000. Data on file.

©ETHICON, INC. 2008

Despite its diminutive size the MicroCLAVE Neutral Displacement Connector can be one of your most powerful allies in the fight against catheter-related bloodstream infections. Neutral displacement and the ability to eliminate heparin flushing promotes better patient outcomes.

# MicroCLAVE<sup>®</sup>

## NEUTRAL DISPLACEMENT CONNECTOR

Small is powerful.

open up and  
say anything

want better health care? start asking more questions. to your doctor. to your pharmacist. to your nurse. what are the test results? what about side effects? don't fully understand your prescriptions? don't leave confused. because the most important question is the one you should have asked. go to [www.ahrq.gov/questionsaretheanswer](http://www.ahrq.gov/questionsaretheanswer) or call 1-800-931-AHRQ (2477) for the 10 questions every patient should ask. **questions are the answer.**

In preventing CRBSI,

ZERO 

infection rate should be the goal.

When it comes to hospital-acquired infections, zero should be the only acceptable infection rate. BioPATCH<sup>®</sup> Protective Disk with CHG is the only one of its kind proven to reduce Catheter-Related Bloodstream Infections (CRBSI) by 60%<sup>1</sup>. The proprietary technology in BioPATCH<sup>®</sup> continually releases CHG for up to 7 days, for sustained antimicrobial action. CRBSI can be attributed to high mortality rates, so add BioPATCH<sup>®</sup> to your catheter insertion and dressing change protocols and get closer to the goal of zero. For additional information or technical support, call 877-ETHICON. For Full Prescribing Information visit [www.BioPATCH.com](http://www.BioPATCH.com) and, to order, please call 800-255-2500.
