Quarterly Reviews of Biophysics Editorial Office: Professor Bengt Nordén, Department of Chemistry and Bioscience, Chalmers University of Technology, SE-41296 Gothenburg, Sweden. E-mail: norden@chembio.chalmers.se

Quarterly Reviews of Biophysics' primary aim is to provide a forum for general and specialized communication between biophysicists working in different areas. This will normally be achieved by inviting authors who have made significant contributions to give a critical and readable account of recent progress in their special fields. Shorter and even controversial articles discussing topics of particular current interest will also be published. Suggestions for reviews can be made to the editors who will provide instructions for Contributors for the preparation of a manuscript.

Quarterly Reviews of Biophysics (ISSN 0033-5835) is published four times a year in February, May, August and November.
