
PUBLISHER'S ANNOUNCEMENT

Special Issues

We are publishing in Volume 11 this year, Special Issues of the journal, *Insect Science and Its Application* as follows:

1. Proceedings of the International Study Workshop on Tsetse Population and Behaviour held in Nairobi on 6–10 August 1989 (Number 3).
2. Proceedings of the First International Symposium on the Cereal Stem Borer *Chilo* held in Nairobi on 25–29 July 1989 (Number 4/5)

Content:

Tsetse disease transmission
Tsetse population dynamics
Tsetse behaviour and physiology
Tsetse control technology

Content:

Status and control of *Chilo* spp. in different regions
Taxonomy, distribution, population ecology, dynamics and crop losses
Physiology, behaviour and biochemistry
Rearing and quality control
Host plant resistance
Breeding and resistance genetics
Cultural, genetic and chemical control
Biological control
Pheromonal control
Integrated pest management

3. Proceedings of the Second International Conference on Tropical Entomology held in Nairobi on 31 July–4 August 1989 (Number 6)

Content:

Biological control of insect pests and vectors in the tropics
Host plant resistance
Vector biology and control
Microbial control of insect pests and vectors
Behaviour, physiology and genetics
Distribution, population ecology and infestation
Recent advances in acridid physiology and their application
PM, chemical and cultural control
Tick biology and control
Biological control of cassava pests
Acoustic detection of insect larvae in post-harvest commodities
Post-harvest insect pests and their management
