

SIEMENS

X-ray diffraction tubes special announcement

Siemens is excited to announce new pricing for its X-ray diffraction tubes! Check out our competitive prices and new warranty. We guarantee these products to be free from defect under normal use for a period of one year from date of installation or for 18 months from shipment, *regardless of hours of use*. This gives you the option of having a spare tube available on site for minimum downtime, and lets you meet ISO 9000 requirements!

**All tubes made by Siemens, with our full backing.
No third party vendors to deal with!
We are fully staffed to answer all technical questions.**

For more information, call the Siemens Service Department at 800-234-XRAY, or fax 608-276-3015.

Now Available from ICDD

EDD

1993 ELECTRON DIFFRACTION DATA BASE

(NIST/Sandia/ICDD) Crystallographic & chemical data on more than 81,500 materials with search/match software for identification by electron diffraction methods*

CDF

1994 NIST CRYSTAL DATA FILE

Crystallographic & chemical data on more than 197,600 materials with retrieval software**

*Available for IBM-PC compatibles, VAX, Alpha AXP, and Macintosh
**Available for IBM-PC compatibles, VAX, and Alpha AXP

X-ray Diffraction Reference Standards and Zero-background Sample Plates Custom Designed and Built for any Application

Your first step to improved x-ray diffraction results should be to contact The Gem Dugout for quality diffraction alignment standards and zero-background plates. And the next step is successful x-ray diffraction results.

SEIFERT

- Extra large and extra thin Be-window for a high intensity X-ray beam, specially suited for long fine focus applications.
- Razor sharp focal spots ensure beam brilliance.
- Spectral purity
- Efficient cooling system for extended anode life.
- Full line of tubes
5 different focal spots,
7 different target materials,
2 different anode lengths,
compatible with European style towers.
- Designed and manufactured under ISO 9001 standards.
Backed by a world wide warranty of 2500 hrs.

DIN ISO 9001 / EN 29001

- World wide fast and friendly service, available through SEIFERT authorized service stations and re-sellers.

The Scintag Peltier X-ray Detector: *The New Industry Standard in X-ray Diffraction*

Another first from Scintag!

Scintag's exclusive second-generation Peltier-cooled x-ray detector for powder diffractometers is a breakthrough in x-ray diffraction. Without the need for liquid nitrogen cooling, Scintag's new detector provides all of the benefits of a solid state detector and more:

- **Better sensitivity**
- **Superior peak-to-background ratios**
- **No alignment required**
- **No routine maintenance required**

For the latest innovations in powder diffraction, Scintag is the clear choice. Contact us today for our brochure and a complete system demonstration, and judge for yourself.
