

# TABLE DES MATIÈRES

---

	Pages.
XXI <sup>e</sup> SYMPOSIUM DE L'U. A. I., Observatoire de Paris, 27-31 mai 1963 (J. KOVALEVSKY).....	1
INAUGURAL ADDRESS; Astronomical constants as object of recent research (W. FRICKE).....	5
A review of geodetic parameters (W. M. KAULA).....	21
Geodetic constants and the motion of the Moon (A. H. COOK).....	33
Constants related to the Earth and Moon (H. JEFFREYS).....	67
The mean distance to the Moon as determined by radar (B. S. YAPLEE, S. H. KNOWLES, A. SHAPIRO, K. J. CRAIG, D. BROUWER).....	81
The fixing of the gaussian gravitational constant and the corresponding geocentric gravitational constant (S. HERRICK).....	95
Astronomical and « astrodynamical » values of constants and ephemerical data (S. HERRICK).....	105
The constant of nutation and the system of astronomical constants (R. O. VICENTE).....	109
Some recent studies of nutation in the U. S. S. R. (E. P. FEDOROV) .....	115
The precessional constant, parameters of solar motion and galactic rotation in the FK 4 system (N. A. BOSHTIAKOVICH).....	119
La constante de l'aberration en astrométrie (B. GUINOT).....	125
Résultats préliminaires de l'observation de la constante de l'aberration (H. I. POTTER).....	131
The unit of time-interval (D. H. SADLER).....	133
The motion of Mars, 1751-1956 (R. L. DUNCOMBE).....	137
A preliminary estimation of the accuracy of inner planet's coordinates (D. K. KULIKOV).....	139
The radar determinations of the Astronomical Unit (D. MUHLEMAN).....	153
Radar determination of the Astronomical Unit (I. I. SHAPIRO).....	177
Radar observations of Venus and a determination of the Astronomical Unit, 1962 (J. E. B. PONSONBY, J. K. THOMSON, K. S. IMRIE).....	217
On the compatibility of the recent solar parallax results from radar echoes of Venus with the motion of Eros (E. RABE).....	219
An attempt to reconcile the dynamical and radar determinations of the Astro- nomical Unit (B. G. MARSDEN).....	225
Some remarks on the paper by B. G. Marsden (E. RABE).....	237
Relations among some important astronomical constants (D. BROUWER).....	241

	Pages.
Review of the system of astronomical constants (G. A. WILKINS).....	251
Astronomical constants, a survey of determined values (S. BÖHME, W. FRICKE).....	269
PROCÈS-VERBAUX DES SÉANCES (J. KOVALEVSKY, P. J. MESSAGE).....	295
RÉSOLUTIONS adoptées par le Symposium n° 21 de l'U. A. I. sur le système des constantes fondamentales	
Texte français.....	320
English version.....	322
TABLE ANALYTIQUE (J. KOVALEVSKY).....	324
