

# Astronomical Society of Australia

Proceedings

Volume 8 Number 3 1990

## *Invited*

- Modelling the Universe J. J. Monaghan 233  
Elliptical Galaxies – Getting to the Heart Elaine M. Sadler 238  
Helium in Three H II Galaxies and the Helium Abundance B. E. J. Pagel & E. A. Simonson 243

## *Extragalactic*

- What are IRAS Galaxies? An Optical Answer V. S. Meadows, D. A. Allen, R. P. Norris & P. F. Roche 246  
The Space Distribution of Local Radio and X-ray Galaxies P. A. Shaver 250  
2152-69: The First Image from the Australia Telescope R. P. Norris, M. J. Kesteven, R. A. Sramek, W. E. Wilson, J. W. Brooks, M. R. Calabretta, R. D. Ekers, G. J. Nelson, M. W. Sinclair & A. C. Young 252  
The Fanaroff-Riley Classification of Southern Extragalactic Radio Sources P. A. Jones 254  
Radio Polarization Observations of Three Southern Galaxies J. I. Harnett, R. F. Haynes, R. Wielebinski & U. Klein 257  
Flux Densities at 8400 MHz for a Large Sample of Parkes Radio Sources Alan E. Wright, Robin M. Wark, Euan Troup, Robina Otrupcek, Andrew Hunt & David J. Cooke 261

## *High Energy Astrophysics*

- High Energy Transient Ionospheric Monitoring Network Paul J. Edwards 263  
Search for Ultra High Energy Gamma Rays from Centaurus A D. J. Bird & R. W. Clay 266  
Enhanced Cosmic Ray Diurnal Variations in Mawson and Hobart Neutron Monitor and Underground Data Records M. L. Duldig & J. E. Humble 268

## *Galactic and Stellar*

- Progress of the MOST Galactic Survey J. B. Z. Whiteoak 274  
The Effect of Dust Shell Emission on the Strengths of Infrared Spectral Features in OH/IR Stars A. R. Hyland & G. Robinson 278  
Two Models for the Radio Spectra of Stellar Flares R. J. Beardwood & D. B. Melrose 283

## *Solar & Solar System*

- The Energy Release in Solar Flares: Implications of a Constant-Current Model D. B. Melrose 286  
Variation of the Current Profile in a Solar Flare J. I. Khan 289  
Australian Tree Ring Chronologies as Proxy Data for Solar Variability J. O. Murphy 292  
Solar Cycle Graphics 1700-1988 AD J. O. Murphy 298  
The Asteroidal Impact Rate upon the Terrestrial Planets: An Update Duncan Olsson-Steel 303

## *Instruments and Basic Astronomy*

- A Technique for Reducing the Grating Lobes of the Molonglo Observatory Synthesis Telescope S. W. Amy & M. I. Large 308

## *History of Australian Astronomy*

- Wallal: The 1922 Eclipse Expedition R. R. Burman & P. M. Jeffery 312

## *Society Business*

314

## *Cover*
