# Astronomical Society of Australia

## Proceedings

**Editor** Dr R. X. McGee.  
*CSIRO Division of Radiophysics, Box 76, P.O., Epping, N.S.W. 2121*

### Officers

**President** Dr K. B. Fenton, *University of Tasmania*  
**Vice-President** Dr D. C. Morton, *Anglo-Australia Observatory*  
**Vice-President** Dr B. J. Robinson, *CSIRO Division of Radiophysics*  
**Secretaries** Dr L. R. Allen, *University of Sydney*  
Dr M. L. Duldig, *University of Tasmania*  
**Treasurer** Dr D. K. Milne, *CSIRO Division of Radiophysics*  
**Councillors** Dr J. A. Dawe, *Mt. Stromlo and Siding Spring Observatories*  
Dr R. A. Duncan, *CSIRO Division of Radiophysics*  
Dr D. J. Faulkner, *Mt. Stromlo and Siding Spring Observatories*  
Dr J. E. Ross, *University of Queensland*  
Prof. J. A. Thomas, *University of Melbourne*

The Constitution, By-laws and Guiding Principles of the Society are given in Vol 5 of the *Proceedings*. Information on Society matters may be obtained from the Secretary, Astronomical Society of Australia, School of Physics, University of Sydney.

The *Proceedings* may be obtained from the Business Manager at the Division of Radiophysics, Box 76, P.O., Epping, N.S.W. 2121. Price per annum, \$A55.00 (2 issues).

ATISSN 0066-9997.

### Corporate Members of the Astronomical Society of Australia

Macdonald Wagner Pty. Limited, Consulting Engineers, 100 Miller Street, North Sydney, N.S.W. 2060

The Macmillan Company of Australia Pty. Ltd., 107 Moray Street, South Melbourne, Vic. 3205

The Science Foundation for Physics, University of Sydney, N.S.W. 2006

## Proceedings

## Volume 6 Number 1 1985

A Survey of Australian Research in Space Physics, Astronomy and Astrophysics	R. P. Robertson	1
3.3 GHz Ground-state transitions of CH towards southern HII regions. I. An Atlas of CH profiles	J. B. Whiteoak, F. F. Gardner, Gwenyth A. Manefield, B. Höglund and L. E. B. Johansson	6
<b>Contributions</b>		
<i>Instrumental</i>		
The Sydney University 11.4 m prototype stellar interferometer	J. Davis and W. Tango	34
A new high angular resolution stellar interferometer	J. Davis and W. Tango	38
Interferometric measurement of atmospheric seeing	J. W. O'Byrne	43
A medium rigidity Muon experiment for the South Pole station	M. L. Duldig, R. M. Jacklyn and M. A. Pomerantz	48
<i>Extragalactic</i>		
A deep survey of the infrared sources in the field of the SMC	S. C. Russell and A. R. Hyland	52
Angular diameters of Magellanic Clouds planetary nebulae obtained using speckle interferometry	P. R. Wood, M. S. Bessell and M. A. Dopita	54
Preliminary results for a new survey of ringed galaxies	R. Buta	56
<i>Theoretical</i>		
Solar granulation: the influence of viscosity laws on theoretical models	P. Fox and R. Van der Borgh	60
Upper mass limits for hydrogen-rich planetary nebula nuclei	D. J. Faulkner and P. R. Wood	62
<i>Gamma Rays</i>		
Very high energy gamma ray astronomy	A. G. Gregory	65
<i>Comets</i>		
Halley's Comet: its origin and composition	A. J. R. Prentice	68
<i>Alec Little Memorial Symposium</i>		
Introduction	L. R. Allen	71
Astronomy at the Molonglo Radio Observatory	B. Y. Mills	72
Synthesis Observations of southern supernova remnants	D. K. Milne, J. L. Caswell, R. F. Haynes, M. J. Kesteven, K. J. Wellington, R. S. Roger and J. D. Bunton	78
Pulsar astronomy at Molonglo	R. N. Manchester	89
High resolution mapping with the FST	J. D. Bunton, I. G. Jones and D. R. Brown	93
The Australia Telescope—current status	J. R. Forster	101
The Magellanic System	D. S. Mathewson	104
<i>Society Business</i>		
Obituaries: Harley Wood	Bill Robertson	111
Ron Giovanelli	K. V. Sheridan	112
Alec Little	B. Y. Mills	113
Book Review: "Colours of the Stars" by David Malin and Paul Murdin	L. R. Allen	115
Notice to Authors		116
Front Cover: A. G. Little, Ruby Payne-Scott and W. N. Christiansen at the Potts Hill Field Station of the CSIRO Radiophysics Lab. circa 1949
