THE NEWCOMEN SOCIETY FOR THE STUDY OF THE HISTORY OF ENGINEERING AND TECHNOLOGY

Meetings held monthly from October to April. Summer Meeting of four to five days' duration. One-day meetings in the South-East and Midlands.

Transactions, issued annually, contains seven or eight Papers. (A typical volume contained 187 pages, 40 text figures and 51 half-tone illustrations.)

Bulletin of 12 pages issued three times a year.

Subscription: £4 (£2 without *Transactions*).

*Apply for particulars of membership to the Hon. Secretary,
Newcomen Society,
Science Museum, London, S.W.7.*

The British Society for the History of Science

Student Membership

A new class of membership has been instituted by the Society, under the title Student membership.

"Students" of the Society must normally be below the age of 25 years and be undergoing a full- or part-time course of education at a school, college or university.

The Annual Subscription for "Students" is £1 10s. 0d. (\$4.50 U.S.).

Student membership entitles the holder to receive Parts of the Society's journal, as these are published, without additional charge, and to receive all the other privileges of Ordinary Membership, except a vote in matters affecting the running of the Society.

Further information about the Society will be found on the inside back cover of this journal.

Cass Library of Science Classics

A series of facsimile editions of rare masterpieces of the history and philosophy of science from the Scientific Revolution to modern times.

General Editor: Dr. L. L. Laudan, University College, London.

Titles to be published in 1967

- Charles Babbage** Ninth Bridgewater Treatise—A Fragment (2nd ed., 1838). 90s
- Isaac Barrow** The Usefulness of Mathematical Learning (1734). Translated by John Kirkby. With a new introduction by M. S. Mahoney. 5 gns
- Torbern Bergman** A Dissertation on Elective Attractions (1785). Translated by T. Beddoes. With a new introduction by A. M. Duncan. 5 gns
- Abraham DeMoivre** The Doctrine of Chances: or, A Method of Calculating the Probabilities of Events in Play (2nd revised ed., 1738). 5 gns
- James Edleston, Ed.** Correspondence of Sir Isaac Newton and Professor Cotes, including Letters of Other Eminent Men (1850). 6 gns
- Johann von Goethe** Theory of Colours (1840). Translated by Charles Eastlake. 6 gns
- Robert Hooke** Philosophical Experiments and Observations (1726). Edited by W. Derham. 90s
Posthumous Works (1705). Edited by Richard Waller
With a new introduction by T. M. Brown. 12 gns
- Christiaan Huygens** The Celestial Worlds Discover'd (1698). 45s
- Richard Kirwan** An Essay on Phlogiston, and the Constitution of Acids (1789). 90s
- Antoine Lavoisier** Essays, Physical and Chemical (1776). Translated by T. Henry. With a new introduction by Professor D. McKie. 7 gns
- J. Clerk Maxwell, Ed.** The Electrical Researches of the Honourable Henry Cavendish, F.R.S. (1879). 6 gns
- Voltaire** The Elements of Sir Isaac Newton's Philosophy (1738). Translated by John Hanna. 90s
- William Whewell** Philosophy of the Inductive Sciences (1847)
2 volumes. 12 gns
History of the Inductive Sciences (1857)
3 volumes. 15 gns
- John Wilkins** Mathematical and Philosophical Works (1802).
2 volumes in one. 7 gns

ORIGINS OF MENDELISM
R. C. OLBY

'A useful book which should be widely read by professional biologists and which should be a valuable addition to school and university libraries.' *Barrie Burnet, Guardian.*

'This scholarly and well-documented study.' *Times Literary Supplement.*

'Erudite . . . important book.' *Times Educational Supplement.*

Illustrated 30s.

MICROGRAPHIA
ROBERT HOOKE

A delightful accumulation of ideas and observations, conveying a sense of immediacy and excitement, by the great 17th-century secretary and demonstrator to the Royal Society. Unabridged reprinting of 1665 edition.

38 plates. Dover paperback, 20s.

ELEMENTS OF CHEMISTRY
ANTOINE LAVOISIER

A classic work, with a new Introduction by Douglas McKie, which does for chemistry what Newton's *Principia* did for physics. 10 tables, 13 double-page plates, 2 charts, 1 foldout. Total of 49 tables. Dover paperback, 28s.

ANTONY VAN
LEEUVENHOEK & HIS
'LITTLE ANIMALS'
CLIFFORD DOBELL

A collection of writings by the father of Protozoology and Bacteriology selected, translated and edited from his printed works, unpublished manuscripts and contemporary records. 32 illustrations. Dover paperback, 18s.

Future Programme

January — July, 1968

- 5 January WINTER MEETING—LONDON: 10.15 a.m. IMPERIAL COLLEGE, South Kensington J. A. CHALDECOTT, ESQ.—'Josiah Wedgwood's contributions to Pyrometry.'
Also short papers dealing with current research.
- March 19 PROFESSOR W. F. GRIMES, C.B.E.—'The Development of Archaeological Techniques.'
- May 13 *Reserved for a Guest Speaker from abroad.*
- July 5-6 SUMMER MEETING—LEEDS: THE UNIVERSITY
Invited papers; short papers dealing with current research. Annual General Meeting; Presidential Address; Annual Dinner.

Enquiries should be addressed to Mr H. G. L. Bevan, Hon. Programme Secretary, Chelsea College of Science, London, S.W.3.

History of Rocketry and Space Travel

WERNHER VON BRAUN
FREDERICK I. ORDWAY III

Here is the story of how the way to the solar system was opened and how it became possible in our time. No comparable reference work exists which documents rocket flight in such detail, contains as many references, or presents so many fine photographs and illustrations of past and current events.

Wernher von Braun is renowned as the leading rocket engineer in the Western World. Frederick I. Ordway III has been a major contributor to astronomical reference works.

206 pages of illustrations, charts and diagrams, 32 in colour. 84/-

The Early Birds

ARCH WHITEHOUSE

This is the dramatic story of aviation's momentous first fifteen years—from the Wright's twelve-second flight to the deadly war-time air battles of 1914-1918. Arch Whitehouse, who was one of the air aces of World War I and whose own experience spans nearly the entire modern history of powered flight, describes the colourful careers of the men who joined in the race to rival the birds.

THE BRITISH SOCIETY FOR THE HISTORY OF SCIENCE

THE objects of the Society are to further the study of the history of science, by holding meetings for the reading and discussion of papers, and by facilitating the publication of relevant material.

The British Journal for the History of Science is the official organ of the Society.

Meetings are held in the Science Museum, Exhibition Road, South Kensington, London, S.W.7, usually in October, November, March and May. In addition a Winter Meeting is held in January and a Summer Meeting in June; neither of these meetings is necessarily held in London.

Membership is open to all persons approved by the Council of the Society, and elected at an Ordinary Meeting. The annual subscription is at present £2 10s. (for Students £1 10s.) and includes a free issue of the Society's Journal, which appears in June and December each year.

Those who wish to join the Society should write to the *Hon. Secretary*, Mr. J. A. Chaldecott, Science Museum, South Kensington, London, S.W.7.

Papers for inclusion in the Journal should be submitted to the *Hon. Editor*, Dr. M. P. Crosland, Department of Philosophy, The University, Leeds 2, from whom instructions may be obtained concerning the presentation and documentation of papers. All communications on editorial matters, and books for review, should be addressed to the Hon. Editor.

Particulars regarding advertising in the Journal may be obtained from the *Hon. Treasurer*, Mr. D. Chilton, Science Museum, South Kensington, London, S.W.7.

The British Journal for the History of Science is published by the Society. Four parts constitute one Volume; each part contains approximately 96 pages. The cover of each issue has a consecutive number for ease of collation in subsequent binding, e.g. No. 16 will be numbered: Vol. iv Part iv No. 16, and No. 17 will be: Vol. v Part i No. 17.

Order Forms, with lists of contents of Parts already published, are obtainable from the *Hon. Publications Secretary*, Dr. J. D. North, 39 Wellington Square, Oxford, to whom Orders for the Journal should be sent.

Whole Cloth Binding Cases lettered in Gold on spine and particulars of binding costs may be obtained from HEADLEY BROTHERS LTD., INVICTA PRESS, ASHFORD, KENT.
