Hume reconsidered . . .

The Secret Connexion

Causation, Realism, and David Hume

GALEN STRAWSON

It is widely supposed that Hume invented and espoused the 'regularity' theory of causation. This book argues that the theory is indefensible, and that Hume never adopted it in any case.

Egoism and altruism united?

A. W. PRICE

The Limits of Morality

SHELLY KAGAN

Most of us believe there are limits to the sacrifices that morality can demand of us—but is this view correct? Again, many people maintain that certain acts are simply forbidden, even when necessary for promoting the common good—but are they right? Shelly Kagan questions these two ideas.

The Editor may alter manuscripts wherever necessary to make them conform to the stylistic and bibliographical conventions of the journal. Single quotation marks should be used except where there is a quotation within another. The titles of books and journals should be underlined (i.e. to be printed in italics), as should foreign words. Titles of articles should be in single quotation marks.

Notes and references will be printed as footnotes and should be typed (double-spacing) on a separate sheet, numbered consecutively. They should be referred to in the text by superscripts. Citations should be as follows:
