

TABLE OF CONTENTS

Some theorems about the sentential calculi of Lewis and Heyting. By J. C. C. MCKINSEY and ALFRED TARSKI.....	1
Models of logical systems. By JOHN G. KEMENY.....	16
Modality and description. By ARTHUR FRANCIS SMULLYAN.....	31
Corrections to two papers on modal logic. By FREDERIC B. FITCH.....	38
Reviews.....	40
Tenth meeting of the Association for Symbolic Logic. By MAX BLACK....	61
Abstracts of papers.....	61
Elections.....	64
Institutional contributing subscribers to the JOURNAL.....	64
A system of axiomatic set theory—Part VI. By PAUL BERNAYS.....	65
Practical forms of type theory. By A. M. TURING.....	80
An extension of basic logic. By FREDERIC B. FITCH.....	95
A problem concerning the notion of definability. By ALFRED TARSKI....	107
Reviews.....	112
A new theory of element and number. By HAO WANG.....	129
A note concerning the paradoxes of strict implication and Lewis's system S1. By SÖREN HALLDÉN.....	138
Contextual definitions in nonextensional languages. By GUSTAV BERGMANN	140
Reviews.....	141
Axiom schemes for m -valued functional calculi of first order. Part I. Definition of axiom schemes and proof of plausibility. By J. B. ROSSER and A. R. TURQUETTE.....	177
Matrix development of the calculus of relations. By IRVING M. COPILOWISH	193
Proofs of non-deducibility in intuitionistic functional calculus. By ANDRZEJ MOSTOWSKI.....	204
Reviews.....	208
List of officers and members of the Association for Symbolic Logic.....	229

ERRATA

VOLUME 6

- Page 147, line 13. After « if », insert « $y = \Lambda$ or ».
Page 147, line 17. After « case », insert « $y \neq \Lambda$ and ».
Page 147, line 19. Before « (α) », insert « $\eta \neq \Lambda .$ ».
Page 149, line 24. Prefix « $y \neq \Lambda .$ ».
Page 149, line 27. Before « (α) », insert « $\eta \neq \Lambda .$ ».

VOLUME 11

- Page 5, line 5 from the bottom. Insert a left parenthesis after -3 .

VOLUME 12

- Page iii, line 11. For « intrepenting », read « interpreting ».
Page 15, lines 13, 17. For \equiv read \equiv .
Page 15, line 19. Insert \equiv between $(\beta_1 I \beta_2)$ and $(\beta_1 I \beta_2)$.
Page 30, line 4 from the bottom. Delete the word « consistent ».
Page 115, line 11. Append, in place of the period at end of D15, the following:
 . $(y)(z)(w)(LPar y . RPar z . Cwyz . \supset \sim Seg wx)$.
Page 124, line 25. Insert parentheses enclosing $\{k + 1\}^c$.
Page 125, line 16. The exponent after $(p + 1)$ should be $\phi_{q,p+1}^{\sigma(y)}(a)$, twice.
Page 127, line 24. For $\Omega q(m, x)$ read $\Omega_q(m, x)$.
Page 128, line 19. $\phi_{1,\omega}^x(2)$ should be an exponent after ω_1 .
Page 128, lines 17, 18, 22. The dots (which stand for multiplication) should be center dots.
Page 147, line 9. Before « XII 104(2) », insert « add also ». Also, near the end of the line, for « so me », read « some ».

VOLUME 13

- Page 2, line 8 from the bottom. $L8$ should be $(\alpha \supset \beta) \rightarrow (\alpha \rightarrow \beta)$.
Page 13, footnote 15. The symbol \blacktriangle , occurring between quotation marks, is not meant to be superior.
Page 46, line 23. For the first p_r , read p_1 .
Page 62, line 11 from the bottom. For « veritatis », read « veritates ».
Page 86, line 15. For « Proposition », read « Proposition ».
Page 102, line 19. For « if », read « is ».
Page 122, line 9 from the bottom. For « indispensable », read « indispensable ».
Page 147. Instead of 14, the page number should be 147.
Page 149, last line. For x , read x .
Page 151, line 18 from the bottom. The entire line should be in italic type.
Page 153. The letters « te » at the beginning of line 11 should stand instead at the beginning of line 10.
Page 160, line 7. For « authors », read « author's ».
Page 163, line 20 from the bottom. For « misspelled », read « misspelled ».
Page 166, line 24 from the bottom. For $CK\epsilon x z e y z e x y$, read $CK\epsilon x z e y z e x$.
Page 166, line 27 from the bottom. The letters x and a should be italic.
Page 170, line 14 from the bottom. Insert $]$ at the end of the line, immediately before the quotation marks.

ASSOCIATION FOR SYMBOLIC LOGIC

President: Ernest Nagel, Columbia University, New York-27, New York.

Vice-President: S. C. Kleene, University of Wisconsin, Madison-6, Wisconsin.

Secretary-Treasurer: Robert E. Luce, Rutgers University, New Brunswick, New Jersey.

THE ASSOCIATION FOR SYMBOLIC LOGIC is an international organization for the promotion of research and of critical studies in the field of formal logic. It is intended to provide a meeting ground for mathematicians and philosophers interested in this field, to encourage cooperation and mutual criticism among various groups, and to promote a wider general knowledge and appreciation of current research and recent advances in the field.

THE JOURNAL OF SYMBOLIC LOGIC is the official organ of the Association. It provides a medium for the publication, in English, French, or German, of research and of critical or expository articles in symbolic logic and immediately related fields. Volume 1 contains a bibliography of symbolic logic for the period 1666–1935; a list of additions and corrections to this bibliography, together with indexes to the whole, appears in Volume 3, Number 4. A complete current bibliography of the literature of symbolic logic from January 1, 1936, including both books and articles, is provided by prompt publication of critical reviews (indexed by authors biennially, and by subjects at longer intervals).

Subscription to the Journal is \$4.00 annually. Single numbers of the current volume are \$1.25 each. Completed volumes (four numbers) will be sold at \$5.00. Single copies of the bibliographical number, Volume 1 Number 4, will be sold at \$1.50 (rag paper edition, \$2.00). Other single numbers are \$1.50.

Offprints of the list of additions, corrections, and indexes to the bibliography are on sale at \$1.00 (rag paper, \$1.25). These contain a title-page and may be bound with Volume 1 Number 4 to form a complete bibliography of symbolic logic to the end of the year 1935.

Orders should be addressed to the office of publication of the Journal at Mount Royal and Guilford Avenues, Baltimore-2, Maryland, or preferably to the *Secretary-Treasurer of the Association for Symbolic Logic at Rutgers University, New Brunswick, New Jersey.*

ANNALS OF MATHEMATICS STUDIES

Edited by EMIL ARTIN MARSTON MORSE

- | | | | |
|-----|---|---------|--------|
| 7. | Finite Dimensional Vector Spaces
By PAUL R. HALMOS | 201 pp. | \$3.00 |
| 8. | Metric Methods in Finsler Spaces and in the Foundations of Geometry
By HERBERT BUSEMANN | 247 pp. | \$3.00 |
| 9. | Degree of Approximation by Polynomials in the Complex Domain
By W. E. SEWELL | 246 pp. | \$3.00 |
| 11. | Introduction to Non-Linear Mechanics
By N. KRYLOFF and N. BOGOLUTOFF | 108 pp. | \$2.00 |
| 14. | Lectures on Differential Equations By SOLOMON LEFSCHETZ | 218 pp. | \$3.00 |
| 15. | Topological Methods in the Theory of Functions of a Complex Variable
By MARSTON MORSE | 150 pp. | \$2.25 |
| 17. | Problème Général de la Stabilité du Mouvement
By A. LIAPOUNOFF | 271 pp. | \$3.50 |
| 18. | A Unified Theory of Special Functions
By C. A. TRUESDELL | 188 pp. | \$3.00 |

The prices above are subject to an educational discount of fifteen per cent.

PRINCETON UNIVERSITY PRESS
PRINCETON, NEW JERSEY

The Journal of Philosophy

Founded by Frederick J. E. Woodbridge and W. T. Bush

AN ORGAN of active philosophical discussion. This periodical is issued fortnightly and permits the prompt publication of brief essays in philosophy, of timely discussions, and of reviews of current books.

Editors: Professors Herbert W. Schneider, John H. Randall, Jr., Ernest Nagel, of Columbia University.

Book Editors: Henry D. Aiken, Virgil C. Aldrich, Joseph L. Blau, C. West Churchman, Harry T. Costello, John R. Everett, Edwin Garlan, Otto F. Kraushaar, Paul O. Kristeller, Cornelius Krusé, Helmut Kuhn, Kenneth P. Landon, Harold A. Larrabee, Donald S. Mackay, V. J. McGill, Ernest A. Moody, P. Romanell, Mario M. Rossi.

\$5 a year, 26 numbers. 30 cents a copy.

515 West 116th Street, New York 27, N. Y.
