

The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

Edited by NEIL WEIR

Assistant Editors PATRICK BEASLEY, CAROL WENGRAF, RICHARD RAMSDEN,
IOLO GRIFFITH, PETER RHŶS EVANS, DAVID PROOPS, VALERIE LUND & HENRY GRANT
Book Reviews and Abstracts Editor JOHN B. BOOTH

Production Editor INGA MCKENZIE

INSTRUCTIONS FOR AUTHORS

1. Original articles which have not been published elsewhere are invited and should be sent to the Editor. They are considered for publication on the understanding that they are contributed to this *Journal* solely. Reproduction elsewhere, in whole or in part, is not permitted without the previous written consent of the Author and Editor and the customary acknowledgement must be made. Normally an original main article should not exceed 7500 words.

Longer articles or theses will be considered for publication as *Supplements*, at the expense of the authors or their employing authorities.

2. Manuscripts should be **typewritten in duplicate** on one side of the paper only (A4 297x210 mm) and double spaced, with wide margins.

Begin each component on a new page in the following sequence: title page, abstract, text, acknowledgements, references, tables and legends.

(a) **Abstract**—This should contain not more than 150 words and include a statement of the problem, the method of study, results and conclusions; a 'summary' section should **not** be included in the main manuscript.

(b) **Key Words**—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where no appropriate word(s) are listed those dictated by common sense/usage should be supplied.

(c) **Text**—Suggested outline—(1) introduction, (2) materials and methods, (3) results, (4) discussion, (5) conclusion.

(d) **Tables** are adjuncts to the text and should not repeat material already presented.

(e) **Illustrations**—Two sets of illustrations, one with each copy of the manuscript, must be submitted and all authors should remember that the single column width is 80mm. One set of illustrations should, therefore, not exceed this width and they should ensure that the essential features are illustrated within this dimension.

Coloured illustrations will be charged to authors, unless a special grant is authorized by the Editor.

Written permission from the publisher must be provided to the *Journal* in order to republish material with copyright elsewhere and also from the senior author where necessary.

(f) **Measurements** must be in metric units, with *Système Internationale* (SI) equivalents given in parentheses.

(g) **References**—For *Journal* articles, The Harvard system of recording references should be used, e.g. Green, C. and Brown, D. (1951) The tonsil problem. *Journal of Laryngology and Otology* 65: 33–38. A paper written by more than two authors should be abbreviated in the text, e.g. Green *et al.* (1951), but **all** the authors should be given in the list of references. The titles of all *Journals* should be given without abbreviation. **References should be listed in alphabetical order**; use of the Vancouver system will **not** be accepted.

For single-author books, the following style should be used: Green, C. (1951) *The tonsil problem*, 2nd Edition, vol. 1, Headley Brothers Ltd., Ashford, Kent, pp 33–38.

For papers in multi-author books with one or more editors, the reference should include the title of the chapter and the names of the editors, together with the number of the edition as eg: Brown, D. (1951) Examination of the ear. In *Diseases of the Ear, Nose and Throat*. 2nd Edition. (White, A., Black, B., eds.), Headley Brothers Ltd, Ashford, Kent, pp 33–38.

It is most important that authors should verify personally the accuracy of every reference before submitting a paper for publication. The names of authors cited in the References should be given in alphabetical order.

(h) **Drugs**—The proper names of drugs must be used. One reference can be made to the brand name if it is felt to be important to the study.

(i) **Meetings**—If the manuscript was presented at a meeting, the place where it was held, and the date on which it was read must be included and should appear at the foot of the title page.

(j) **Financial disclosures**—In the submission letter to the Editor, the authors must list all affiliations with or financial involvement in, organizations or entities with a direct financial interest in the subject matter or material of the research discussed in the manuscript.

(k) **Declaration**. Each manuscript must be accompanied by a letter of declaration to be signed by each author to confirm that they have seen, read and approve the contribution bearing their name.

(l) **Rejections**—All manuscripts which are rejected will no longer be returned to the authors. Those submitting papers should, therefore, ensure that they retain at least one copy and the reference numbers, if any, of the illustrations. The only exception to this will be those manuscripts with colour illustrations which will be returned *automatically* by Surface Mail.

(m) **Facsimile (FAX)**. All authors should send a Facsimile number whenever possible to speed communication; this particularly applies to those outside the United Kingdom. Manuscripts with no visual illustrations (X-rays/pathology) may be sent by facsimile.

3. Page proofs are sent to authors for corrections, which should be kept to a minimum; they must be clearly marked, and no extra matter added. Proofs should be returned within 5 days.

4. Orders for reprints must be sent when returning page proofs, and for this purpose special forms are supplied.

5. Editorial communications may be addressed to **The Editor, Journal of Laryngology and Otology, c/o Headley Brothers Ltd., The Invicta Press, Ashford, Kent TN24 8HH or sent by FAX (0483 451874).**

6. **The annual subscription is £95.00 Institutions & Libraries US\$237.50; £85.00 Individuals US\$212.50; £45.00 Registrars, Residents and Interns.** (Those in training should submit a certificate from The Head of the Department giving details of their appointment; those who qualify must supply their *home* address for mailing direct). Claims to be made for missing issues within 6 months of each publication date.

7. Single copies of current or back numbers (when available) will be on sale at £12.00 each (including postage).

8. **SUPPLEMENTS** published at 'irregular' intervals with subscription, available separately on request.

9. All subscriptions, advertising and business communications should be sent to the publishers, or subscription agents.

in association with

**THE INSTITUTE OF
LARYNGOLOGY AND OTOTOLOGY**

are pleased to announce

THE 12th DOWNS TEMPORAL BONE DISSECTION PRIZE

photograph of last year's winning entry from N. Balaji

■ The First Prize enables the winner to attend the Portmann Course in Microsurgery in Otology and Otoneurology at Bordeaux in July 1994.

■ The Second Candidate will receive Medical Books to the value of £225 and the Third Candidate to the value of £150.

■ Candidates eligible for this prize will be full-time SHO's, Registrars and Senior Registrars in clinical posts in Otolaryngology within the United Kingdom, and Consultants appointed after 1st January 1994.

■ Submissions should consist of two dried temporal bones:

1) Dissected to demonstrate surgical approaches in the treatment of Menière's disease.

2) Dissected according to the candidates' own choice.

■ The Winner will be announced at the meeting of the Otology Section of the Royal Society of Medicine in May 1994.

■ The Judges are: Mr. David Wright, Professor Tony Wright and Mr. Martin Bailey.

■ Further information is available from Mr. C. M. Bailey at the address below.

■ Entries must be sent to Mr. C.M. Bailey (c/o the Department of Pathology), at the address below. All temporal bones must be transported according to existing regulations, and must be received before 28th February 1994. No entries can be accepted after this date.

2nd World Congress
on Laryngeal Cancer
Sydney - Australia
21 - 25 February 1994

On behalf of the Departments of Otolaryngology and Radiation Oncology, The Prince of Wales Hospital, Sydney, I extend to you a warm invitation to attend an International Meeting on Laryngeal Cancer.

The programme will cover all aspects of laryngeal cancer. Our theme will be to suggest future directions in research, diagnosis and management.

JL&O 10/93

ARE YOU A SUBSCRIBER TO THE J.L.O.?

TEN good reasons why you should:

Each issue contains 40 per cent more material.

Main Articles, Case Reports and Short Communications from all over the world.

Quarterly Book Review Service.

Selected Abstract Service each month.

Period between acceptance and publication cut to six months or less.

Subscribers receive all supplements produced in that year.

Every 10 years, complete index issue published—included in the subscription (next issue will appear at the end of 2002).

Reduced subscription rates for those in training (Registrars/Residents/Interns).

Subscription normally tax deductible. (Those in training should submit a certificate from the Head of the Department giving details of their appointment; those who qualify must supply their *home* address for mailing direct.)

The J.L.O. has now been published for more than a century and remains excellent value for money—so why not have your own individual copy and give yourself everyday access!

Endoscopes in a class of their own

Suction-irrigation handle for sinus surgery

- simple operation: no awkward, tiring movements
- adequate irrigation and suction

new Flexible Bronchoscope
for universal application

Stroboscopy of the larynx

Stroboscopy of the larynx is useful in the diagnosis of functional disorders of the voice and provides information about the tension, amplitude and phase of the vocal chords and about irregularities of the oscillatory movement. Secondary organic changes or conditions following microsurgical operations can also be checked.

G 016 / XII 91

Recurrent vertigo under control means that patients can continue with their normal daily activities.

With non-sedative Serc-16, driving can be a part of that way of life — because new evidence has shown that even high doses of Serc (72mg tds) did not impair driver performance.¹

Prochlorperazine (5mg tds), however, caused a significant deterioration in driving skills, of which the drivers themselves were unaware.¹

The way ahead is now clear for your patients with recurrent vertigo —
 Rx Serc-16 1 tds.

NON-SEDATIVE

Serc-16

betahistine 16mg

THE WAY AHEAD IN RECURRENT VERTIGO
 due to Ménière's syndrome

Reference 1. Betts TA et al. *Br J Clin Pharmacol*; 1991; 32: 455-458

Prescribing information

Presentation A white, flat round tablet imprinted '267' on one face, 'DUPHAR' on the reverse, each tablet containing 16mg betahistine dihydrochloride. Available in packs of 84 tablets. Basic NHS price £18.03. **Indications** Vertigo, tinnitus and hearing loss associated with Ménière's syndrome. **Dosage and administration** 16mg 3 times daily with meals.

Maintenance dose: 24-48mg daily. **Children:** No dosage recommendations are made for children. **Contra-indications, Warnings, etc.** Contra-indications: Pheochromocytoma. **Precautions:** Caution is advised in the treatment of patients with a history of peptic ulcer. Clinical intolerance to Serc in bronchial asthma patients has been shown in a relatively few patients and therefore caution should be exercised when administering betahistine to patients with bronchial asthma. The usual precautions should be observed with patients in pregnancy. **Side-effects:** Relatively

few side-effects have been reported. They include gastrointestinal upset (including dyspepsia), headache, skin rash and pruritus. **Product Licence Number** 0512/0068. **Legal Category** POM. **Date of Preparation** February 1993. Further information is available from: Duphar Laboratories Limited, Galens Hill, West End, Southampton SO3 3JD. Tel: 0703 472281. Duphar, a member of the Solvay Group.
