

Announcing a new journal for
1994

Meteorological Applications

Published for the Royal Meteorological Society

Meteorological Applications is an exciting new journal devoted to publishing material describing the different applications of meteorology, with particular emphasis on developments within Europe.

In recent years there has been a lot of activity devoted to developing the quality and range of meteorological services provided to a wide range of customers. This has required meteorologists to become increasingly aware of the needs of the users of the information, and for users to have a greater understanding of the services.

Meteorological Applications aims to encourage this flow of information between providers and users.

Features

- Original articles
- Review articles
- News section
- Calendar of forthcoming conferences, colloquia and symposia
- Reports of important conferences
- Book reviews
- Correspondence

Subscription

Volume 1 in 1994: March, June, September and December: £96; Special arrangements exist for Royal Meteorological Society members; airmail £14 per year extra. ISSN 1350-4827

OFFICERS AND COUNCIL 1993–94

PRESIDENT

W. F. Blanchard

VICE PRESIDENTS

B. D'Oliveira, OBE

Wg Cdr J. Mitchell

TREASURER

H. J. Agnew

CHAIRMAN OF THE TECHNICAL COMMITTEE

D. M. Page

CHAIRMAN OF THE MEMBERSHIP & FELLOWSHIP COMMITTEE

Captain A. N. Cockcroft

Other Members of Council

T. J. Bartlett
C. M. D. Beatty
Air Commodore N. Bonnor
Professor M. J. Dove
V. D. Hopkin

Dr J. D. Last
Dr C. Quereé
J. D. Reeve
Captain D. G. Ross
Captain R. A. Smith, RN

DIRECTOR

Group Captain D. W. Broughton, MBE, RAF

CONTENTS

The Eva G. R. Taylor Lecture: Navigators and Mathematical Practitioners in Samuel Pepys's Day	1
H. WALLIS	
The ECDIS Paradox: A Controversial View on Navigation, Freedom and Safety at Sea	20
F. BIANCHETTI	
Mercator – 425 Years Not Out	28
T. HUGHES	
The Air Traffic Capacity of Two-Dimensional Airspace	33
S. RATCLIFFE	
The Fisherman – Navigating to the Plaice	41
K. KNOX	
Blinking Detection Methods for Loran-C	46
A. NIEUWLAND	
Design and Operation of a Computerized, On-Board, Weather Routeing System	54
R. H. MOTTE, R. FAZAL, M. EPSHTEYN, S. CALVERT AND H. WOJDYLAK	
TMSIM: A Runway Capacity Study for Frankfurt and Chicago O'Hare Airports	70
D. TRIVIZAS	
The <i>Nautical Almanac's</i> Faulty Calculator Instructions	89
M. PEPPERDAY	
Visual Approach Guidance Indicator Systems	96
J. R. C. YOUNG	
Position by Observation of a Single Body	99
R. WILLIAMS	
On the Two-Body Running Fix	103
K. GIBSON	
Shortest Spheroidal Distance	107
T. ZUKAS	
The Adventures of Leonard	108
J. B. PARKER	
An Interesting Problem in Spherical Trigonometry	111
O. ÖZTAN, U. ÖZERMAN AND Z. KIZILSU	
Review	115
The Channel Navigation Information Service	117
A. H. GRIFFITHS	
Authenticity and Verification of Aeronautical Data	121

Review	451

THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication.

The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Study Groups which keep under constant review pertinent aspects of navigation. The success of these Study Groups is crucially dependent on the active involvement of members.

The Institute publishes *The Journal of Navigation* three times a year. It contains papers which have been presented at meetings together with the ensuing discussion, other original papers, selected papers and reports from Study Groups, and book reviews. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is co-ordinated with that of similar organizations in other countries. There are also active Branches throughout the United Kingdom.

Membership

There are five classes of Membership of the Institute:

(1) **HONORARY MEMBERS:** Distinguished persons upon whom the Council may see fit to confer an honorary distinction.

(2) **FELLOWS:** Members, of at least three years' standing, holding certain qualifications laid down in the by-laws; these qualifications include having made a contribution of value to navigation.

(3) **MEMBERS:** Persons over twenty-one years of age who satisfy the Council of their interest in navigation.

(4) **STUDENT MEMBERS:** Persons under twenty-five years of age studying at a recognized school or university with a view to making navigation, or an allied interest, their career.

(5) **CORPORATE MEMBERS:** Organizations such as universities, navigation schools, government departments or companies, here and abroad, who are directly or indirectly interested in the science of navigation. Corporate Members are entitled to send representatives to all Institute meetings and to receive six copies of its publications. They are encouraged to take an active part in the Institute's work. Applications should be sent by letter addressed to the Director.

Subscriptions

Annual subscriptions to the Institute are payable in advance as follows:

Members and Fellows	£50.00
Student Members	£10.00
Corporate Members	£350.00 + VAT

The Institute's financial year begins on 1 July. Members in any category who are elected after 1 January in any year are only due for one half of their subscription until 1 July, when the full subscription for the next year becomes due.
